

**J**ulie Taylor  
Senior WHS Consultant

## Lead Auditor

Master of Science (OHS)  
Graduate Diploma of Science (OHS Health and Rehabilitation)  
Bachelor of Applied Science (Physiotherapy)  
Certificate IV in Training and Assessment

Julie joined SRC Solutions in early 2004. She is a highly experienced professional with a strong focus across a number of areas in Work Health and Safety (WHS). Julie has provided our clients with ergonomic assessments, workplace risk assessments, audits and policy development. She has assisted various organisations to develop and implement WHS management systems to achieve compliance with their relevant legislative obligations.

Julie has extensive experience as a workplace trainer whose creative ideas increase participation from her learners. She has provided training for Senior Executives on WHS legislative requirements and responsibilities, as well as many training sessions in manual handling and WHS awareness for a wide variety of clients. She is well regarded across the industry as an excellent instructor in Health and Safety Representative (HSR) Training.

Julie has worked both as an employee and a WHS consultant for BlueScope Steel, Australia Post and the University of Wollongong. Julie also has many years of clinical experience as a physiotherapist.

Julie's strengths lie in her ability to assist clients in the development of effective and robust WHS systems and to plan and develop tailored WHS Training. This is supported by her strong tertiary qualifications and excellent communication and writing skills.
